Back to Sharemax, people are enquiring on information placed on the NDCAG website, as well as questioning my loyalty towards Tromp, the unlawfully appointed Trustee of the Nova Debenture Trust. 11:56 ✓✓

I have no control or say what happens on the NDCAG Group. In 2018 I tried to join to be part of the Management of the Group, but was not allowed to. In this capacity I remain. 11:57 ✓✓

With regards Tromp, when I was lawfully chosen as the Debenture Trustee, Myburgh chose Tromp to represent the Trust. I filed my complaints with the CIPC and gave reasons. My attitude towards Tromp has not changed. 11:57 ✓✓

Nova was initiated as a result of the SARB unlawful repayment SoA, which I never supported. Nova is the result of this unlawful transaction, and thus what they do with the proceeds of the Sharemax assets, is of no concern to me, or any of its investors(victims of this crime). It should keep the SARB and its supporters awake at night, because they will be held accountable for our losses. We will claim

our losses. We will claim all losses back from the SARB, it is the SARB and their supporters problems of how they recover their losses, from inter alia Nova. It is for this reason, I do not consider Nova to be a baby which I must look after. If I were lawfully appointed as Debenture Trustee, I would have focussed all my attention on the SARB who are the cause of this spoiled Nova baby. 11:57 ✓✓

My actions were, are and remain to hold the State accountable for all our losses, and this is the fight I'm involved with. The compensation I seek is from them, as well as restitution and I will make sure the NPA prosecute the correct criminals, with evidence I will provide them. The Lord permitting. 🙏 11:58 ✓✓
